The Jamestown Foundation, United States, 2009. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book. Beginning in earnest at the turn of the twenty-first century, China embarked on a robust multilevel engagement strategy with a number of African states on three simultaneous fronts - economic, political, and military. The push was predicated by Beijing s need to secure energy and natural resources to fuel its booming economy and bolster its position as the world s manufacturing hub. The depth of China s engagement cannot be understated, and its increasing stakes in the security dimension of Africa s myriad conflicts is affecting the geopolitical landscape of a continent that has been in the past an exclusive domain of the West. China in Africa examines the multifaceted effects of China s engagement with the continent, both its many risks and opportunities. It provides critical and relevant information for understanding the strategic drivers, trends, and the potential impact of China in Africa. The book covers Chinese soft and hard power, energy and arms relations, and China s relations with individual African countries: Angola, Djibouti, Egypt, Eritrea, Ethiopia, Nigeria, Somalia, Sudan, Zambia, and Zimbabwe. Ultimately, this volume serves to assist in improving U.S. policymakers understanding of China s role in Africa and ensure that appropriate measures are taken to secure American interests in the region.
