WIND TURBINE OPERATION IN COLD CLIMATE

Wind turbine operation in cold climate

LAP Lambert Academic Publishing Mai 2014, 2014. Taschenbuch. Condition: Neu. Neuware - The goals of this work are to determine and estimate the influence of the ice accretion on the performance of the wind turbine blade. The techniques are described of the calculation of the ice accretion on the turbine blade. The aerodynamic characteristics of the blade with ice are determined. The methodology of the classic Blade Element Moment Theory was applied. The experimental data of the iced blade were...
