Reviews

The publication is great and fantastic. It is probably the most remarkable book i actually have read through. Its been printed in an exceedingly easy way and it is merely right after i finished reading through this publication where in fact altered me, modify the way i think.

Not illustrated. 1918 Excerpt: .is very little blood in the body, as is usual in old age. But all the organs and tissues seem to be in a healthy condition, and they evidently all gave out together. There has never been a crime of any kind about here in the memory of the oldest inhabitant, and I do not believe this is anything but a natural death. People can t live forever, even if they have no disease. Such language would certainly sound very strange, and the crude methods of such an investigation would be very evidently absurd, but not really more so than this assumption of a uniform action of the elements during all past time. Geologists are only coroners at large. On every bed, nay, on every fossil, we must hold a post mortem, and determine, independently of all theories, how these creatures died, and how the bed was deposited. Uniformitarians DIAGRAM OF OUR SOLAR SYSTEM would certainly make poor coroners, or, for that matter, poor investigators of law, or history, or anything else. The second postulate of geology which every true lover of inductive methods must object to assuming as a preliminary to all investigation, is that our globe originated by the hot process, in any manner whatever, --whether according to the theory of Kant, La Place, Madler, Lockyer, or Faye, --for they are all alike in teaching that our globe was once fluid throughout. The pro and con of this, as a theory in itself, is...
