Grosset and Dunlap, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book. Like Michelangelo, Galileo is another Renaissance great known just by his first name. A name that is synonymous with scientific achievement. Born in Pisa, Italy, in the sixteenth century, Galileo contributed to the era s great rebirth of knowledge. He invented a telescope with which he was able to observe the heavens. From there, not even the sky was the limit! He turned long held notions about the universe topsy turvy with his support of a sun-centric solar system. Patricia Brennan Demuth offers a sympathetic portrait of a brilliant man who lived in a time when speaking scientific truth to those in power was still a dangerous preposition.
