

Spatial Planning and Climate Change

By Elizabeth Wilson, Jake Piper

Taylor Francis Ltd, United Kingdom, 2010. Paperback. Book Condition: New. 230 x 156 mm. Language: English . Brand New Book ***** Print on Demand *****.Spatial planning has a vital role to play in the move to a low carbon energy future and in adapting to climate change. To do this, spatial planning must develop and implement new approaches. Elizabeth Wilson and Jake Piper explore a wide range of issues in this comprehensive book on the relationship between our changing climate and spatial planning, and suggest ways of addressing the challenges by taking a longer-sighted approach to our preparation for the future. This text includes: * an overview of what we know already about future climate change and its impacts, as we attempt both to adapt to these changes and to reduce the emissions which cause them * the role of spatial planning in relation to climate change, offering some theoretical and political explanations for the challenges that planning faces in the coming decades * a review of policy and legislation at international, EU and UK levels in regard to climate change, and the support this gives to the planning system * case studies detailing what responses the UK and the...
