Short Books Ltd, United Kingdom, 2007. Paperback. Condition: New. Language: English . Brand New Book. I am 32 years old. Height: just under six foot. Weight: ten and a half stone. Waist size: 32 on a good day. I have never been seriously ill or had an operation that required a general anaesthetic, I m not allergic to anything that I know of, apart from magical realist novels and films starring Kate Beckinsale. Increasingly though I worry. I worry about illness and death. Do you worry that spots are cancerous? That headaches are caused by tapeworm larvae burrowing into your brain (cysticercosis, it s called)? That shoulder twinges are cardiovascular accidents waiting to happen? If so, you re almost certainly a hypochondriac, But don t worry about it, And don t whatever you do, let anyone make you feel guilty or ashamed. As this hilarious book shows, hypochondria is the only sane response to modern life - an illness in itself (hurrah!), and part of a noble tradition of neurosis stretching back thousands of years. From Darwin to Tolstoy, many of history s greatest writers and thinkers have been incorrigible hypochondriacs, They understood what too many of us have forgotten: that you can only get better by imagining the worst. So let s do it!.
