By organization is meant the coordination of means to the attainment of the end professed. Included within this meaning is method, as referring more specifically to actual procedure in the inter-activity of teacher and pupil in the classroom, laboratory, shop, and outdoors. Under these two heads particular attention has been given to the study of the curriculum as a revealing factor in the matter of organization and to the activity of the teacher as an instructive factor in the revelation of method. But more or less controlling modifiers of organization, such as qualification of pupils and of teachers, adequacy of equipment, location of school, type of school, and aid from the state,...
