Excerpt from Natural Resources Management Plan and Environmental Assessment Revised January, 1985: Hawaii Volcanoes National Park, Hawaii The 1984 Resources Management Plan Update received the benefit of considerable criticism and advice from public, agency, and internal reviewers. The Park owes a large debt of gratitude to these astute and generous people for their keen interest and insistence on high standards by the managers of their park. It was determined through public and nps review of the 1973 Natural Resources Management Plan and Environmental Assessment and subsequent revisions in 1978 and 1982 that the proposed actions would not have significant environmental effects or adversely affect cultural resources. Since the projects described in this Revision fall within the purview of impacts of the 1973 Plan and Assessment and Section 106 clearance, no further documentation of impacts is necessary prior to implementation of projects.
