Reviews

Unquestionably, this is the best operate by any author. It is among the most amazing pdf i actually have read. Its been designed in an remarkably basic way which is just right after i finished reading this pdf by which basically altered me, change the way i believe.
(Harold Spencer)

A DANGEROUS PLACE: CALIFORNIA S UNSETTLING FATE

Penguin Publishing Group, United States, 2004. Paperback. Book Condition: New. Reprint. 202 x 126 mm. Language: English . Brand New Book. Writing with a signature command of his subject and with compelling resonance, Marc Reisner leads us through California s improbable rise from a largely desert land to the most populated state in the nation, fueled by an economic engine more productive than all of Africa. Reisner believes that the success of this last great desert civilization hinges on California s denial of its own inescapable fate: Both the Los Angeles and San Francisco Bay areas sit astride two of the most violently seismic zones on the planet. The earthquakes that have already rocked California were, according to Reisner, a mere prologue to a future cataclysm that will result in immense destruction. Concluding with a hypothetical but chillingly realistic description of what such a disaster would look like, A Dangerous Place mixes science, history, and cultural commentary in a haunting work of profound importance.
