Amazon Publishing, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book. Staff Sergeant Winthrop Carter has just been drafted into the Nightstalkers--an elite group of soldiers that. Actually, he s not quite sure what they do. Born from the Area 51 initiative, the Nightstalkers defy sanity and decorum and include among their ranks Moms, a Black Ops trainee too extreme for Special Forces; Doc, a scientific crackpot; Roland, the weapons enthusiast; and Mac, a contemporary MacGyver. All of them take their orders from the elusive Ms. Jones, who everyone claims is just a hologram. Those orders include tracking down and sealing tears in our reality that are releasing interdimensional beings known only as Fireflies-- creatures that take control of both living and inanimate matter in order to unleash wanton destruction. Just as Carter is settling in, a rogue scientist triggers a fresh invasion of Fireflies that swarm a swanky gated community. Now it s up to Carter and his new teammates to neutralize the threat while figuring out who s behind the breach.
