With a growing holistic view of the world and a greater awareness of personal and collective energy, our level of perception is transforming from something singular-the physical form-to a greatly expanded awareness that includes intuition, past and present, right and left brain, and heart and body. As our perceptive ability evolves, we must relearn the principles of how we live, create, and grow in order to be successful in the rapidly transforming reality of the Intuition Age. Written with clarity, insight, and humor, Leap of Perception is a comprehensive guide that shows us how to adapt to an expanding paradigm of perception. You will learn to materialize the situations you want, resolve conflict in relationships, expand your creativity, reduce exhaustion and anxiety from multitasking, ease fear caused by the transformation process, and develop new skills like telepathy, clairvoyance, applied empathy, rapid healing, and more.
