

Nutrient requirement in Banana cv. Jahaji (Musa AAA) under HDP system

By Gogoi, Bornali / Khangia, Bipin

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Banana crop is widely grown in India and has great socio-economic and religious significance. Banana is the fourth-important food ingredient in terms of gross value exceeded only by rice, wheat and milk product. It is an important crop for small and marginal farmers. To meet the growing population the emphasis has been given on the increase in the productivity by providing closer spacing or high density planting of banana. In this book, the authors have attempted to consolidate different spacing and proportions of nutrients required for high density planting of banana. This book will benefit students who are acquainting themselves in high density production technology of banana. | Format: Paperback | Language/Sprache: english | 92 pp.
