Testing Times: Success, Failure and Fiasco in Welsh Education Policy Since Devolution (Paperback)

By Philip Dixon

Welsh Academic Press, United Kingdom, 2016. Paperback. Condition: New. Language: English . Brand New Book. The Welsh Government's Department of Education was famously called dysfunctional, by its own Minister. In Testing Times, a forensic and devastating critique of the Welsh Government's strategies and initiatives since devolution, the respected educationalist Philip Dixon argues that this is still the case, stating: If you want to find the weakest link in Welsh education today then look no further. A strong supporter of devolution, and a firm believer that Wales has the capability to create a world class educational system, Philip Dixon is brutally and refreshingly honest when identifying the major failures in the Welsh Government's creation and implementation of educational policy. He criticises a culture which he describes as overly complacent and occasionally reckless. The first detailed analysis of education policy and delivery in Wales since 1999, Testing Times critically examines Welsh Labour's 17-year continuous tenure of the education portfolio under various different Ministers. He scrutinises the collective grand narrative, from the Learning Country to Qualified for Life, and he investigates their impact on the foundation blocks of any education system: curriculum and assessment, qualifications, and accountability.
