A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.

Mr. Webster, the most distinguished American exponent of international law, in his official correspondence with Lord Ashburton, declared that a vessel on the high seas, beyond the distance of a marine league from the shore, is regarded as part of the territory of the nation to which she belongs. He also, in a subsequent letter to the same functionary, held the following language The ocean is the sphere of the law of nations and any merchant vessel on the seas is by that law under the protection of the laws of her own nation, and may claim immunity, unless in cases in which that law allows her to be entered or visited. The maritime right of visitation and search of neutral merchant vessels is a pure belligerent right, and can have no existence on the high seas during peace. It is allowed by the law of nations only in times of war, 1, for contra band, 2, for military persons, and 3, for despatches.
