Harriman House Publishing. Paperback. Book Condition: new. BRAND NEW PRINT ON DEMAND., Day Trading Grain Futures: A Practical Guide to Trading for a Living, David Bennett, This practical book provides you with everything you need to be able to day trade grain futures effectively. It opens with chapters explaining the author's preference for the grain futures markets, and his reasons for preferring to day trade, before going on to explain the fundamentals of trading and the more specific knowledge required for his chosen approach. In a concise, punchy style the reader is introduced to some timeless trading concepts, and shown how these ideas can be moulded into a trading system to attack the exhilarating grain markets. A key feature of the book is the chapter tracing the progress of a real life trading session. It shows the author's methods being applied in practice, with numerous screen shots giving the reader an understanding of what the trading process feels like in practice - effectively giving you a fly on the wall view of the author in action. Another highly illustrated chapter shows a complete month of trading charts with commentary on trades taken, giving the reader an appreciation of the longer term trading process. A process described...
