

Chemical Reaction and Heat source/sink effects on MHD Nanofluid Flows

Filesize: 6.37 MB

Reviews

Most of these pdf is the perfect ebook available. It is actually rally intriguing through reading period. I am pleased to explain how this is actually the greatest ebook we have read within my personal life and might be he finest publication for actually.
(Prof. Dario Lang)

CHEMICAL REACTION AND HEAT SOURCE/SINK EFFECTS ON MHD NANOFLUID FLOWS

To download **Chemical Reaction and Heat source/sink effects on MHD Nanofluid Flows** PDF, please access the link under and download the ebook or get access to additional information which are related to CHEMICAL REACTION AND HEAT SOURCE/SINK EFFECTS ON MHD NANOFLUID FLOWS ebook.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | An analysis is presented to investigate the chemical reaction effects of magnetohydrodynamics convection slip flow of a thermosolutal nanofluid in a saturated porous media over a radiating stretching sheet with heat source/sink. The similarity solution is used to transform the problem under consideration into a boundary value problem of coupled ordinary differential equations, which are solved numerically by using the finite difference method. Numerical computations are carried out for the non-dimensional physical parameter. The results are analyzed for the effect of different physical parameters such as chemical reaction parameter, magnetic field parameter, Prandtl number, thermophoresis parameter, Brownian motion parameter, convection-radiation parameter, Lewis number, hydrodynamic (momentum) slip parameter, convection-diffusion parameter, convection-conduction parameter, on the dimensionless velocity, temperature and nanoparticle concentration fields and are presented through graphs. | Format: Paperback | Language/Sprache: english | 72 pp.
