

The Bi-monthly Zoological Bulletin Volume 3

By Pennsylvania. Dept. of Zoology

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 80 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1913 edition. Excerpt: . . . immediately after molting the skin, green predominates. Adults reach a length of three and one-half inches. Fig. 15. -- Structural characters of the American Toad (*Bufo lentiginosus americanus*): a, dorsal view of head; b, fore foot; c, hind foot. About 1 3-5 times natural size. Original drawings from the Office of the State Zoologist. The typical *Bufo lentiginosus* Shaw occurs in the eastern United States, while the form *americanus* Le Conte is restricted to the northern States. While we made no special effort to collect toads, in the collection of the Division of Zoology are ninety-five specimens, from twenty-nine counties, as follows: . . . Swissvale. Hookstown. New Albany. Doylestown. Allegheny county, Beaver county, . . . Bradford county, Bucks county, Centre County, State College. Blyson Camping Party, . . . Blyson. Cumberland...

Reviews

It is a single of my personal favorite ebook. Better than never, though I am quite late in start reading this one. I am effortlessly will get a satisfaction of reading a published ebook.

-- **Ms. Lavada Krajcik**

Comprehensive guideline for book lovers. It can be filled with knowledge and wisdom I realized this publication from my dad and I suggested this pdf to find out.
