Reviews

Comprehensive manual for ebook fans. I am quite late in start reading this one, but better then never. Its been written in an exceptionally basic way and is particularly merely soon after i finished reading this publication in which really changed me, affect the way in my opinion. Balboa Press, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Psychographies is a novelized memoir of the artist Isaura Sanchez. We first encounter Sanchez as a teenager as she is working on a series of drawings via automatic writing, letting the unconscious guide the free movements of her hand. A few years later, Sanchez realizes that these drawings, which she previously thought lacked any special significance, might contain precognitive artifacts that represent future events before they occur. We follow Sanchez as she enrolls at the university to study Art History where she faces the challenge of defining her own manner of artistic expression. Is this art or parapsychology? Over the course of three decades, Sanchez struggles to find out the true nature of the cascade of predictions that keep revealing themselves through her drawings. In the end, the meanings revealed by these figures and symbols have a profound impact on her interpersonal relationships and her career as an artist, forever changing her way of thinking and her beliefs.
