

## Dominion Medical Monthly and Ontario Medical Journal, 1904, Vol. 22 (Classic Reprint) (Paperback)

By Graham Chambers

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Dominion Medical Monthly and Ontario Medical Journal, 1904, Vol. 22 Sometimes there is sudden loss of consciousness, which disappears so rapidly without resulting paralysis as to suggest epileptic states. Vertigo sometimes occurs alone, and sometimes precedes paralysis. Paralytic symptoms occur without loss of consciousness. Hemiplegia may be attended by very bizarre phenomena. In one case a left hemiplegia was accompanied by a monoplegia of the right eyelids. Monoplegias are very frequent in diabetes, and are apt to be extremely transitory. Paralysis of the right arm and face, ptosis, pupil dilatation, strabismus, and hesitancy in speech may follow glycosuria. While speech disorders are generally due to buccal dryness, yet true aphasia occurs, and aphonia from laryngeal paralysis is far from exceptional. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. ### Reviews

*This publication is great. I have studied it and I am sure that I will be planning to read it once more again in the foreseeable future. You will like how the article writer wrote this publication.*

*-- Dr. Uriel Kovacek*

*This created ebook is great. It was written very properly and useful. It has been printed in an exceedingly easy way in fact it is just right after I finished reading this pdf where basically modified me, alter the way I think.*

*-- Aglae Becker*
