Reviews

It is simple in study safer to understand. It can be full of knowledge and wisdom Your way of life span is going to be enhance when you full looking at this book.

(Lavina Torp)

INTELLIGENT COMPUTER MATHEMATICS: 10TH INTERNATIONAL CONFERENCE, AISC 2010, 17TH SYMPOSIUM, CALCULEMUS 2010, AND 9TH INTERNATIONAL CONFERENCE, MKM 2010, PARIS, FRANCE, JULY 5-10, 2010. PROCEEDINGS

DOWNLOAD

Springer. Paperback. Condition: New. 471 pages. Dimensions: 9.3in. x 6.1in. x 1.0in. This volume contains the collected contributions of three conferences, AISC 2010, Calculemus 2010 and MKM 2010. AISC 2010 was the 10th International Conference on Artificial Intelligence and Symbolic Computation. Its area of concern is the use of AI techniques within symbolic computation as well as the application of symbolic computation to AI problem solving. Calculemus 2010 was the 17th Symposium on the Integration of Symbolic Computation and Mechanised Reasoning, dedicated to the combination of computer algebra systems and automated deduction systems. MKM 2010 was the 9th International Conference on Mathematical Knowledge Management, an emerging interdisciplinary field of research in the intersection of mathematics, computer science, library science, and scientific publishing. All three conferences are thus concerned with providing intelligent computer mathematics. Although the conferences have separate communities and separate foci, there is a significant overlap of interest in building systems for intelligent computer mathematics. As in 2008 and 2009, the three events were colocated. In 2010 this was at the Conservatoire National des Arts et M etiers (CNAM), Paris, France, under the umbrella of the Conferences on Intelligent Computer Mathematics (CICM 2010), organized by Renaud Rioboo and Laurence Rideau. This collocation is intended to counteract the tendency towards fragmentation of communities working on different aspects of various independent branches of our general and traditional branches (e. g. , computer algebra, theorem proving and artificial intelligence in general), as well as newly emerging ones (on user interfaces, knowledge management, theory exploration, etc.). This also facilitates the development of systems for intelligent computer mathematics that will be routinely used by mathematicians, computer scientists and engineers in their every-day work. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
