paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 314 Publisher: Machinery Industry Pub. Date :2008-04-02 version 1. This textbook for general education Eleventh Five-Year national planning materials. The teaching materials to the Ministry of Education Steering Committee to develop new teaching basic requirements as the basis. the main contents include: frequency-selective network and impedance transformation. high-frequency small-signal amplifier. sine wave oscillator. the spectrum moving circuit. angle modulation and demodulation circuit . feedback control circuit and frequency synthesizer technology. high frequency power amplifier. interference and noise. In the content of the presentation. try to be clear thinking. from simple to complex. easy to self. While focusing on the theory and practice. closely around the circuit to receive communications system. transmission equipment. to receive the sending device to the background. and signal transmission circuit from the perspective of each of the functional analysis of the circuit and the organic relationship between them combined so that students in machine learning theory while building the concept. This material can serve as a communications engineering. electronic information engineering undergraduate teaching professional. but also as a vocational. TV. teaching staff and a large reference book on engineering and technical personnel. Contents: Preface Introduction to the book symbol table used communication system components 0.1 0.2 0.3 wireless communication system contents and organization of the book thinking the main problem with the exercises in Chapter 1 frequency-selective network and impedance transformation 1.2 1.1 LC resonant circuit narrowband passive impedance transformation network 1.3 Common filter impedance transformation network 1.4 Broadband thinking questions and exercises in Chapter 2 Overview of high-frequency small-signal amplifier 2.1 2.2 2.3 High-frequency small-signal high-frequency tuned amplifier tuned high frequency amplifier integrated 2.4 amplifier stability problems and thinking exercises in Chapter...
