Acu Publishing, United States, 2011. Paperback. Condition: New. Aufl.. Language: English . Brand New Book. Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. The Loibl Pass is a high mountain pass in the Karavanke chain of the Southern Limestone Alps, linking Austria with Slovenia. The century-old pass near the Stol summit is the shortest connection between the Carinthian town of Ferlach and Tr i in Upper Carniola. Different trails were used since ancient times, connecting Virunum in the Roman province of Noricum with Emona (at present-day Ljubljana). The strategically importance of the Loibl increased again after the establishment of the Imperial March of Carniola in the 11th century, the ruling Patriarchs of Aquileia entrusted the maintenance to the monks of Viktring Abbey, who rived with claims raised by the local Lords of Hollenburg (Humberk) Castle. From about 1560 the estates of the Carinthian duchy had the road extended. A 150 m (500 ft) long tunnel was built underneath the Karavanke chine, an early example of modern engineering that later had to be abandoned due to lack of safety. Another attempt was planned in the 17th century, as the road across the Loibl had become an important trade route between the Carinthian capital of Klagenfurt and the seaport of Trieste.
