Jones and Bartlett Publishers, Inc, United States, 2018. Hardback. Condition: New. 4th Revised edition. Language: English . Brand New Book. Written for the upper-level undergrad or graduate level majors course, Advanced Human Nutrition, Fourth Edition provides an in-depth overview of the human body and details why nutrients are important from a biochemical, physiological, and molecular perspective. Through its writing style and clear figures and illustrations, the text clearly outlines metabolism and the molecular functions of nutrients. A variety of pedagogical elements within the text, such as Here's Where You Have Been and Here's Where You Are Going, help clarify key points from the chapter and provide real-world examples to bring the content to life. New Key to the Fourth Edition - NEW - Each chapter now concludes with Clinical Insight which presents the clinical relevance of the nutritional science topics covered within the chapter - NEW - Chapter 2 now discusses bariatric surgery procedures used to treat obesity, as well as diseases of the gastrointestinal track that have nutritional relevance in health and disease - NEW - Includes the latest algorithms used by the American Heart Association and American College of Cardiology in determining the risk of a cardiac event - NEW - Incorporates controversy brought about by some scientists on protein requirements as it relates to the RDA - NEW - Includes coverage of the role of the fat-soluble vitamins in Alzheimer's disease.
