# MOBILE ACQUISITION PLATFORM FOR SLEEP ASSESSMENT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Master Thesis in Biomedical Engineering | Sleep disorders affect a large percentage of the population all over the world and are often associated with other pathologies. Therefore, an early and accurate diagnosis is determinant to provide adequate treatment. While polysomnography is the preferred tool in this type of diagnosis, the exam is expensive, uncomfortable for the patient and usually it must be performed in clinical facilities. The scope of this thesis is...
