W. W. Norton & Company. Paperback. Condition: New. 400 pages. This compelling assessment of U. S. China relations is essential reading for anyone interested in the future of the globalized world. Many see Chinas rise as a threat to the U. S. leadership in Asia and beyond. Thomas J. Christensen argues instead that the real challenge lies in dissuading China from regional aggression while eliciting its global cooperation. Drawing on decades of scholarship and experience as a senior diplomat, Christensen offers a deep perspective on Chinas military and economic capacity. Assessing Chinas political outlook and strategic goals, Christensen shows how nationalism and the threat of domestic instability influence the partys decisions about regional global affairs. If China obstructs international efforts to confront nuclear proliferation, civil conflicts, financial instability, and climate change, those efforts will likely fail; but if China merely declines to support such efforts, the problems will grow vastly more complicated. Articulating a balanced strategic approach along with perceptive historical analysis, Christensen describes how we might shape Chinas choices in the coming decades so that it contributes to the international system from which in benefits so much.
