# INTEGRATING CARBON NANOTUBES AS FUTURE DEVICE INTERCONNECTS

Saurabh Agrawal  
Integrating Carbon  
Nanotubes as Future Device  
Interconnects  
Synthesis and Structure - Property relationship in  
Carbon Nanotubes

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Synthesis and Structure - Property relationship in Carbon Nanotubes | Carbon Nanotubes (CNTs) are promising materials for future device interconnects due to their high electrical conductivity owing to their one-dimensional structure, and high current carrying capacity. However, many challenges exist for their integration in usable devices. This book covers research in addressing some of these challenges. This book starts off with challenges involved in their synthesis over different substrates materials and geometries...

## Reviews

*Good e book and useful one. I have got read and that i am confident that i will likely to go through once more again later on. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Angela Blick**

*An exceptional publication and also the typeface utilized was fascinating to learn. Better then never, though i am quite late in start reading this one. You will not really feel monotony at at any time of your time (that's what catalogs are for concerning if you ask me).*

-- **Thea Lind**

*A whole new electronic book with a new point of view. It can be full of knowledge and wisdom Its been written in an exceedingly simple way which is only following i finished reading through this pdf in which really modified me, modify the way in my opinion.*
