Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In 2007 I became interested in the exploration of past lives and past life regressions. After a little reading and research, I was able to journey back to where I once was. The results were surprising and are the basis of this book. That first regression has made me a believer simply because the era of that lifetime was one I had never studied or researched. Subsequently, I was able to discover some of the details and information making it historically valid. In additional regressions, I have found similar validations of events. This novel is not intended as a guide or thesis on the topic of Past Life Regeneration but rather a tale that blends what I have seen in my past lives with an element of fiction. There are some elements of fiction involved in the story. However, I do not dismiss the possibility that the fictional portions of this work might be my subconscious mind recalling additional details from the past.
