THE LEARNING POWER APPROACH: TEACHING LEARNERS TO TEACH THEMSELVES (PAPERBACK)**DOWNLOAD**

Crown House Publishing, United Kingdom, 2018. Paperback. Condition: New. Language: N/A. Brand New Book. In The Learning Power Approach: Teaching learners to teach themselves Guy Claxton sets out the design principles of a pedagogical formula that aims to strengthen students learning muscles and develop their independence, initiative, determination, and love of learning. Foreword by Carol S. Dweck. Learning is learnable! Educators can explicitly teach not just content, knowledge, and skills, but also the positive habits of mind that will better prepare students to flourish both in school and in later life. And as `traditionalists fight for rigour and knowledge, and `progressives defend the increasing focus on character and well-being, Guy Claxton s Learning Power Approach (LPA) brings resolution to this phoney and unnecessary war by offering teachers a win-win pedagogical formula that delivers good academic results while simultaneously turbocharging students independence, initiative, and love of learning. Complemented by engaging and informative classroom examples of the LPA in action - and drawing from research into the fields of mindset, metacognition, grit, and collaborative learning - The Learning Power Approach describes in detail the suite of beliefs, values, attitudes, and habits of mind that go in to making up learning power, and offers a thorough explanation of what its intentions and guiding principles are. Furthermore, in order to help those who are just setting out on their LPA journey,...
