A STUDY OF SOME IMMUNOLOGICAL ASPECTS IN CHILDREN WITH RENAL DISEASE

A study of some immunological aspects in children with renal disease

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | This book is a survey for some renal disease. It included 62 pediatric patients at the age range (1-12) years of both genders: 26 with chronic renal failure (CRF) and 36 with nephrotic syndrome (NS), who were outpatients and in-patients in the dialysis unit in both Al-Mansour pediatric teaching hospital and Child's central teaching hospital. Blood samples were collected from patients and controlled. Immunological tests of interleukin-6 (IL-6) and erythropoietin (Epo) measurement...

Reviews

Basically no terms to clarify. It is actually written in basic terms rather than confusing. I found out this ebook from my dad and I suggested this book to find out.
