In principle, tactical behavior should not be strictly self-referential, as it were autistic, because then it must lack the very political meaning that defines it as warfare in war. In these pages, I shall advance the thesis that both the theory and the practice of strategy need to be taught, insofar as they can be, because an education in strategy must encompass ideas and the application of those ideas as plans that have to be implemented by command performance. All of the dots need to be connected, from strategys general theory to the tactical doing of a strategy at any and every level of warfare, in any and every kind of 9 war. Unarguably, the meaning of the word strategy has altered, by and large it has become ever more inclusive up the logical and command hierarchy, since the late 18th century. Scholars can argue and have argued about the linguistic provenance of our contemporary usage...
