A. ) from the year 1999 in the subject Politics - International Politics - Topic: European Union, grade: very good, University of Canterbury (Department of Politics and International Relations), 44 entries in the bibliography, language: English, comment: This study analyses the most important factors determining German policy towards European monetary union and the euro. Although some of the most important economic elements are of course not ignored, particular attention is paid to political considerations such as Germany's position within the European integration process. , abstract: The purpose of this paper is to explore the German national interest in European Economic and Monetary Union. Although not ignoring economic arguments, the analysis focuses on the arguably even more important political benefits and interests. The first chapter introduces EMU from a European perspective, as the next logical step to complete the Single Market and as a source of economic advantages for EU member states. However, it is also an important vehicle for the aim of political union. Hence, in view of Germany's traditional position in Europe, the progress EMU represents in terms of achieving European unity...
