TESTING NODE.JS WEB UIS

[DOWNLOAD](#)

Packt Publishing. Paperback. Condition: New. 146 pages. Dimensions: 9.2in. x 7.5in. x 0.5in. Learn how to easily automate testing of your web apps using Node.js, Zombie.js, and Mocha Overview Use automated tests to keep your web app rock solid and bug-free while you code Use a headless browser to quickly test your web application every time you make a small change to it. Use Mocha to describe and test the capabilities of your web app. In Detail Automating tests for your user interfaces has always been the holy grail of programming. Now, using Zombie.js and Mocha you can create and quickly run your tests, allowing you to test even small changes. Increase your confidence in the code and minimize the number of times you have to use a real browser while you develop. Using Node.js for UI Testing is a quick and thorough guide on how to automatically test your web app, keeping it rock solid and bug-free. You will learn how to simulate complex user behaviour and verify that your application behaves correctly. You will create a web app in Node.js that uses complex user interactions and AJAX; by the end you will be able to fully test it from the command-line. Then you will start creating the user interface tests for this application using Mocha as a framework and Zombie.js as a headless browser. You will also create a complete test suite, module by module, testing simple and complex user interactions. What you will learn from this book Creating your test suite using Mocha. Building a web application using Node.js and Flatiron.js. Loading documents into the Zombie.js headless browser. Triggering user events in Zombie.js. Querying the DOM to test your application behaviour. Injecting complex events into your application. Triggering...
