Blue River Press, 2018. Paperback. Condition: New. Language: English . Brand New Book. Steve Wozniak grew up with an insatiable curiosity that his father, a programmer, helped fuel. After being accepted to the University of Colorado Boulder, Steve was quickly expelled for hacking into the college s computer system. He then got a job at Hewlett-Packard where he met Steve Jobs. Together, the two Steves created the Apple Computer company. Steve Wozniak s job at Apple was to program the computers to be programmable, compact, and fast, which was no easy feat when most computers at the time filled a room. Steve Jobs s role was to market and sell the new computers. Woz, as his friends called him, single-handedly designed and programmed the hardware, circuit boards, and operating system for the Apple I. Slowly, the tech world caught up to him and the personal computer was born.
