Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Special Method in Geography: From the Third Through, the Eighth Grade Tm; purpose of this book is to outline a complete course of study in geography from the third through the eighth grade. The character and arrangement of the materials selected for each grade are discussed at length and the method of treating topics illustrated. The characteristic points to be noted are I the gradual movement from the home outward; the strong concentration of study, first upon North America and second upon Europe; and the selection of types as centres for the organization of materials. In laying out the course of study in Chapter XI, the points of correlation between geography and other studies are marked out, and the list of books at the close is designed as a direct help to teachers in realizing this course of study.
