Amazon Publishing, United States, 2018. Paperback. Condition: New. Language: English . Brand New Book. An unthinkable terrorist plot: The earth is shaking. The clock is ticking. Astronomer Megan O Malley sees things on a cosmic scale--hidden planets, colliding galaxies, imploding stars deep in the universe. But this time, she s sensing something much closer to home. And she can feel it underfoot, too: explosive seismic shifts along a geologic fault line that could unleash an apocalyptic disaster. O Malley also discovers something even more terrifying: the cataclysm is intentional. Someone is determined to trigger a mega tsunami. FBI Special Agent Chip Dawtry is a big-picture guy, too. He lost his brother on 9/11, and ever since, he s focused on preventing the next massive terrorist attack. Now, it isn t hypothetical--it s unfolding fast. But only he and O Malley see the peril. When O Malley vanishes, Dawtry races to find her. It s up to them to stop a 150-foot wall of water ready to roil--and wipe out America s Eastern Seaboard. Each new terrifying rumble means it may be too late.
