By Jessie R Dubose

iUniverse, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.An extraterrestrial civilization created human civilization and all other life on Earth. There was a time when mankind knew about these beings, but as religion and science took over the world, people forgot their true origins. Religion and science remain at odds, but they continue to work together to erase all knowledge of the extraterrestrials. The only thing that hints at the truth is the continued reports of unidentified flying objects and other unexplained phenomena. Join an electrical engineer as he draws upon his technical knowledge and broad understanding of the world to propose a theory that will change your life. He offers guidance on how to evaluate the impact extraterrestrials had on early civilizations; see through the inaccuracies of religion; evaluate scientific theories. Relying on unsound theories to create new ones can lead to problems. While science and religion claim to have all the answers, neither one of them explains life on this planet. The truth is out there, and you can find it in Tarraforming Earth.
