Rising Strong is a book by Brene Brown, a social work professor and psychology researcher who focuses on discovering what it is that prevents people from being happy and living fulfilled lives. Brown has also written two other brilliant works in addition to Rising Strong, titled *The Gifts of Imperfection* and *Daring Greatly*, both of which fall into the category of self-help literature. These two books, similar to Rising Strong, use real life situations and stories to provide practical approaches to every problem. This book talks, as the title suggests, about getting up when we fall down. The author does not mean getting up when we literally fall down, but when we fall down emotionally and spiritually. Every human being has, more or less, this unpleasant experience of falling, when we feel like the world and our life is just pressing us too hard and that it is seemingly impossible to continue living. This is something that will be familiar to many, if not all, people. The author, as in her previous works, uses real experiences from people in her everyday life to offer her readers practical solutions to their problems by showing them a different perspective and demonstrating what to do in order to solve particular problems. If you liked Brown's previous work, then you will most certainly like Rising Strong even more because it will be in a familiar style. If you haven't read any of Brown's previous books, then it is never too late to start, and Rising Strong would be a great book to begin with.
