If you believe some news stories, the latest iPhone update (iOS 11) is radically different and you should beware of updating! They re wrong! This book is for both new users of iPhone and those upgrading to the latest update. I ll walk you through the changes and show you why updating is nothing to be afraid of. Why do you need this book? This book was written for my parents; people who needed to know as much as possible, as quickly as possible. There are people who want to know every single little detail about the iPhone, and you will find that in Apple s comprehensive manual. If you are like my parents though, new to the iPhone and just want to learn all the basics in about 30 to 60 minutes or an hour that is, then this guide will help you. People who just want to know how to add their contacts, how to take photos, and how to email. It s not for advanced users, though if you are upgrading from the previous Apple iOS (iOS 10) then you will most probably find it useful. If you are ready to learn read on!.
