*A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).*

The daily increasing demand for machinery of every description, - the perfection at which workmanship or skill in manufacture has arrived, - and the facility with which every part is executed, render it of the utmost importance that the contrivances which constitute the value of those machines, and the workmanship which renders them capable of being made so truly beautiful, should be reduced to such rules of construction, that while they retain all their essential forms, they may produce pleasing effects upon the eye of an observer; and the best means to produce such an effect are now...
