Woodcutter`s Nucleus Cracking Technique 7. Dealing with Epinucleus and Cortex 8. Frequently Asked Questions 9. Actions : They Speak for Themselves 10. Subluxated Lens, Small Pupil and Pediatric Cataract Preface Friends, Way back in my residency, one of my patients had vitreous haemorrhage. I advised him Crooke`s collosol iodine. He came to me after 15 days with a smile on his face. He was happy to have an improved vision. I was feeling proud about myself as I was convinced that his vision improved because of my treatment. Then I asked him, "how many times did you take that mixture?" Surprisingly, he said, "I didn`t take it. I followed the instructions on the bottle. It said-"keep the bottle tightly closed!" Then I realized that most of the times nature takes the care and surgeon catalyses the process so as to get good results. This is the reason, Phaco cataract surgery appears to me as most natural, since it does not disturb the nature gifted anatomy of eye to a great extent. Over the years, Phacoemulsification is no longer the latest technology but undoubtedly the excellent, time-tested way of cataract surgery. Unfortunately, many new surgeons don`t allow this technology to enter their minds. The most possible reason being fear and apprehension of learning new technique and a scare of causing harm to the patients while learning. But friends, I too wasn`t an exception to this fear. I have passed through every stage of it, realising later, how unjustified my thoughts...
