**THE KING S TWO BODIES: A STUDY IN MEDIEVAL POLITICAL THEOLOGY (PAPERBACK)****DOWNLOAD PDF**

Macat International Limited, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book. Few historians trace grand themes across many centuries and places, but Ernst Kantorowicz s great work on the symbolic powers of kingship is a fine example of what can happen when they do. The King s Two Bodies is at once a superb example of the critical thinking skill of evaluation - assessing huge quantities of evidence, both written and visual, and drawing sound comparative conclusions from it - and of creative thinking; the work connects art history, literature, legal records and historical documents together in innovative and revealing ways across more than 800 years of history. Kantorowicz s key conclusions (that history is at root about ideas, that these ideas power institutions, and that both are commonly expressed and understood through symbols) have had a profound impact on several different disciplines, and even underpin many works of popular fiction - not least The DaVinci Code. And they were all made possible by fresh evaluation of evidence that other historians had ignored, or could not see the significance of.
