Reviews

The most effective pdf i ever read. it absolutely was writttern extremely flawlessly and useful. I am very easily will get a pleasure of reading through a published book.

(Prof. Vidal Ledner)

FORCE STRUCTURE: ARMY NEEDS TO FURTHER TEST THE LIGHT INFANTRY DIVISION: NSIAD-88-115

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO examined the Armys assessment of its light infantry division operational concept and organizational design, focusing on the: (1) standards the Army used; (2) deficiencies it identified; (3) solutions it proposed; (4) Armys plans to resolve remaining deficiencies; and (5) implications of the evaluation results for light infantry divisions. GAO found that the Army evaluation: (1) covered combat, combat-support, and combat service-support operations; (2) identified 27 significant deficiencies involving equipment needs, organizational structure, weapons, doctrine, and training; (3) recommended about 4, 000 changes to the divisions equipment and personnel; (4) did not test the support demands placed on non-divisional units or the capability of newly formed non-divisional units to meet the divisions requirements; and (5) did not test the deployment capability of divisions partially or totally composed of reservists. GAO also found that the Army: (1) accepted about 2, 000 of the evaluation recommendations and rejected the rest as inappropriate or unrealistic; (2) plans to test the division changes during regular training and testing programs; and (3) is currently unable to equip all five of its light infantry divisions in accordance with the approved design because of equipment shortages. This item ships from La Vergne, TN. Paperback.
