Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

STRAIGHT TALK: POLITICAL CORRECTNESS (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book outlines many of the dangerous actions and attitudes engendered by the elitists who direct the political correctness movement. They try to keep our attention on things that do not matter while America falls into ruin. Political correctness is a terminal disease attacking the American way of life. Its primary victim is truth and integrity. This small but vocal minority has forced many Americans to accept deviant behavior as normal. Freedom of expression is extremely limited. You are free to say only that which is PC. Any statement outside the PC approved dogma will result in you being attacked, as if by a pack of rabid dogs. They aren't content to disagree with your freely expressed opinions. They want you silenced, punished, and banished from society and the workplace. You will have read about or at least heard of many of the situations described here. When you read this book, it is my wish that you check the facts for yourself. My goal is that you think about these situations and begin to take appropriate action to return America to its past greatness. Until we all understand how big a problem we face, nothing can be done to correct it. Some of the recommendations outlined here may seem harsh, but the alternative is the death of America. We simply cannot continue on the path we are on today.
