By -

ABC-CLIO, United States, 2006. Hardback. Book Condition: New. 4th Revised edition. 282 x 218 mm. Language: English . Brand New Book. Educational Measurement has been the bible in its field since the first edition was published by ACE in 1951. The importance fo this fourth edition of Educational Measurement is to extensiely update and extend the topics treated in the preious three editions. As such, the fourth edition documents progress in the field and provides critical guidance to the efforts of new generations of researchers and practitioners. Edited by Robert Brennan and jointly sponsored by the American Council on Education (ACE) and the National Council on Measurement in Education, the fourth edition provides in-depth treatments of critical measurement topics, and the chapter authors are acknowledged experts in their respective fields. Educational measurement researchers and practitioners will find this text essential, and those interested in statistics, psychology, business, and economics should also find this work to be of very strong interest. Topics covered are divided into three subject areas: theory and general principles; construction, administration, and scoring; and applications. The first part of the book covers the topics of validation, reliability, item response theory, scaling and norming, linking and equating, test...
