Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Book About the Bee Of books about bees, it may perhaps be said, there is surely no lack. Whilst it may at once be admitted that there are many books dealing more or less with bees, there is one fact to be noted about them. They are nearly all intended as a guide to practical bee-keeping. Out of a list of thirty-five bee books which I have looked over, no less than twenty-eight are practical handbooks. Five are highly scientific works, and the other two are almost of a metaphysical nature, in that the bees are only used as a peg on which to hang a dissertation on human life and conduct. Everyone does not want to keep bees; few people feel intensely interested in detailed descriptions of the internal anatomy of the insect; while it is not every reader who is pleased, on getting half-way through a book about bees, to find that under the sugar coating of a peep into the wonders of Nature is a pill designed to remedy the evils of Society. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
