Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Sometime in the future, humans have abandoned what was left of the planet Earth. Some mutated into other humanoid races: amphibious, reptilian, or feline. Others set up a home base on the planet Mars and staved off mutation. Alice Winters, a former special forces operative turned private detective, is one of the old-fashioned humans. Winters identifies as a Martian, and like most Martians, she s patriotic. She ll defend her home world to the end. Her smarts, experience, and dedication make her the perfect intergalactic sleuth, and her president sends her to a far-off, mineral rich planet called Zedgur to investigate another Martian woman s claims of sexual assault. Martians and other humanoids aren t the only intelligent life on Zedgur. Machine-based life-forms, the robotiqs and the mechanids, have also taken up residence. Alice begins to find connections between the assault and the nonorganic species. She befriends Nix, a mechanid hacker, and alienates one of her oldest friends. In the meantime, a robotiq named Garret weaves a web of intergalactic espionage. As Winters digs deeper, she discovers wily deceptions and diabolical plots that put her patriotic dedication to Mars to the ultimate test.
