

Rural Broadband Deployment, Improved Consistency with Leading Practices Could Enhance Management of Loan and Grant Programs: Report to Congressional Requesters. (Paperback)

By U S Government Accountability Office

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. RUS provides loans and grants to help finance the construction of broadband infrastructure in rural America. GAO was asked to review RUS s management of its programs to fund broadband deployment, including consistency with leading practices for federal funding, program management, and broadband deployment. This report examines the extent to which RUS s procedures and activities are consistent with leading practices and how, if at all, its management practices could be improved. GAO synthesized, from federal guidance and relevant literature, a set of 10 leading practices that would be appropriate for the management of broadband loan and grant programs. GAO validated its set of practices with states that have programs similar to the RUS programs. GAO then reviewed RUS documentation and interviewed RUS officials and six program recipients, selected for having geographically dispersed projects currently under construction. Based on this information, GAO determined whether RUS s procedures and activities were consistent, partially consistent, or not consistent with each leading practice.
