Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Disclaimer Kayaking is inherently dangerous. If you attempt to imitate my exploits you may die. Get trained in water safety and boating safety before you attempt any water adventures. Forward I don t set out to have exciting adventures. I set out to have an interesting time. When you try to live with the tides and currents, you must accept your limitations. You must submit to these unstoppable forces of nature. If you live with a light heart amazing things will come your way and adventures will happen. Philosophy I could stay home and miss the beautiful treasures provided by the natural world. There are risks when one engages with nature. However there are risks to not engaging with nature too. I recently read that your bathroom is the most dangerous room in your house. Millions of people have falls and many of them are injured every year. Few people are hurt kayaking. I choose to take the risks and play the odds.
