

## Fracked

By Mark Dobbs

Lake Front Publisher. Paperback. Book Condition: New. Paperback. 304 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. FRACKED! is a suspense thriller blending scientific fact with heart racing fiction which takes the reader from the surface of a massive deep water lake into deadly caverns searching for the cause of geological nightmares which are rapidly escalating into what could be a regional apocalypse. Earthquakes, including the largest quake to hit Arkansas in nearly thirty-five years, have plagued the Ozark Mountains. This current outbreak is very possibly an after effect of natural-gas drilling and hydraulic fracturing or fracking being done within a hundred miles or so of scenic Bull Shoals Lake in northern Arkansas. The U. S. Geological Survey recorded a four point seven magnitude quake and noted more than eight hundred quakes to strike the area in the last year in what is being called an Earthquake Swarm. Routine testing reveals small fractures in the Dam and area landslides have given local authorities significant concern that there is a geological disaster cresting in this usually safe, pristine mountain setting. A call for help goes out to the State Capital. Guy Fredricks, appointed by the Governor to head up the Arkansas Department of...
