Date :2008-4-5. Eye of science. the fifth edition published in 2001. has lasted more than three years. during printing 25 million copies issued by the School of Medicine school teachers and students and the recognition of clinical ophthalmologists. With the rapid development of science and technology and education publishing needs of the situation in the country study of higher medical teaching materials and the organization of the Office of the Ministry of Health under the guidance of teaching materials. deploying a new version of textbook revision. At the same time. this edition has also been included in the general higher education teaching materials 15 national planning materials. This edition continues to follow the national five-year clinical medical institutions of higher professional training materials revised principles and requirements. efforts to make teaching materials reflect the three bases (the basic theory. basic knowledge and basic skills). three special (a particular object. specific requirements. specific limits) and five (ideological. scientific. advanced. thought-provoking. applicability) requirements. On the one hand to fully update the content. the other is to follow the few and the principle of industry. and strive to the concept of clear. easy to use and clinicians teaching reference. As from the fifth edition of the revised very long time. this edition essentially follows the pattern of the previous version. But increased in recent years. some new content. such as the perspective-based visual LogMAR. international clinical diabetic retinopathy classification. central retinal vein occlusion of new ideas: the use of some diseases more appropriate name of disease. such as simple episcleritis. Fuchs syndrome; in the lacrimal disease. ocular surface disease. corneal disease. glaucoma and other...
